Task Description	Assigned to
Customer account and beyond features (ID: 86-89)	Srihari Y.
Error handling for kiosk (ID: 39)	Roman N.
Error handling for ingredient, staff, and sales management (ID: 79-81)	Kevin M.
Error handling for accessibility features (ID: 91)	Kevin M.
Implement google maps API (ID: 92)	Thai T.

## Minutes from Previous Meeting

The previous meeting was a mix of finishing our implementation of our accessibility features, error handling for our staff user interfaces, weather API for our menu board, and customizations when ordering as an employee/manager. Given that most of us were available to work during this week, we were able to finish the rest of our tasks emphasized for sprint 2 and begin working on tasks for sprint 3. Tasks planned for the next scrum meeting includes: starting on our beyond features (customer-based login, reward system, personal order history, and exclusive drinks), allowing our menu board to fit on desired resolutions, and implementing additions features for managers (inventory, x, and z report).
