Implement accessibility feature for Carol (ID: 75)	Drew E.
Finish second half of kitchen interface (ID: 36-37)	Kevin T.
Finish staff editor page (ID: 59, 64)	Drew E.

# Minutes from Previous Meeting

The previous meeting was a mix of finishing our user interface for our manager home page (manager dashboard, sales trend, & inventory management page), and adding images, details, customizations to our menu items. Since some of our group members have exams this week, we assigned high dependency tasks to those who are available to work early, left over implementation this sprint will be assigned to those who need to meet their task quota. Assigned tasks planned for this meeting include: implementing OAuth to our login, implementing our menu board, implementing the first half of our kitchen interface, and implementing our order history page. After we have these done, we should be able to begin working on our accessibility features.
